LUXURY NEWSWIRE

The Shores at Breckenridge, a luxury resort community on Colorado's Blue River, has been approved to construct single-family residences. Design is well underway on a 2,250 square foot single-family home as well as a 2,700 square foot home. When complete in 2018, the community will have 56 paired and single family residences.

Surrounded by open space, The Shores offers ample opportunity for recreation -- from skiing to fishing to biking and hiking -- and is a 10-minute drive from Breckenridge Ski Resort, across from Breckenridge Golf Club and one mile from historic downtown Breckenridge.

Ranging from \$1,150,000 to \$1,625,000, each three- or four-bedroom home boasts open floor plans, vaulted ceilings, spacious outdoor areas, large windows with mountain and river views, stone accents, oak flooring and knotty-alder cabinetry. Kitchens feature Bosch® appliances including a French door refrigerator, gas cook top, built-in wall oven and microwave and dual-zone wine refrigerator.
